Emily,

Can you add this to the record S/47/0116.

Thank you,

April

April Abate,

SITLA concurs in releasing bond for the U.S. Oil Sands materials site permitted under ML 52542. Thank you.

John T. Blake

Good Morning Jerry and John,

I wanted to send you my inspection report for the bond release of the small area that PR Springs pulled a permit on last year for road base material for the Seep Ridge Road construction project. As you can see in the photos, the road contractor did disturb a small area for testing. The testing found that the material was not meeting specifications and therefore, U.S. Oil Sands decided to apply for a bond release and retire the permit.

We spoke about this site about a week ago if you recall. I am seeking your concurrence on the bond release.

Thank you for your consideration. Any questions, feel free to call me.

April
